<b>WOODFORD COUNTY --- 3.4 SE SECOR [40.69, -89.09], 2.2 SE EL PASO [40.71, -88.99], 1.9 E KAPPA [40.67, -88.98], 1.4 WSW KAPPA [40.66, -89.05], 3.4 W KAPPA [40.66, -89.08]</b>				
	05/11/14 19:00 CST		0	Flash Flood (due to Heavy Rain)
	05/11/14 22:00 CST		0	Source: Emergency Manager
Very heavy rainfall of 2.50 to 3.00 inches between 1800 and 1900 CST resulted in rapid flash flooding in a small part of southeast Woodford County . Illinois Route 251 and County Road 9 west of Kappa were inundated with water 12 to 18 inches deep. Roads were closed for nearly three hours. The water receded quickly and the flooding ended by late evening.				
<b>MCLEAN COUNTY --- 1.0 N TOWANDA [40.58, -88.90]</b>				
	05/11/14 19:04 CST		0	Hail (2.75 in)
	05/11/14 19:07 CST		0	Source: Emergency Manager
Hail lasted for 3 minutes.				
<b>A warm front lifting northward through central Illinois triggered strong to severe thunderstorms across the area during the late afternoon and evening of May 11th. Many of the storms produced hail greater than quarter-sized, with the largest stones up to the size of baseballs just north of Towanda in McLean County. In addition, a few of the cells produced high rainfall rates and localized flash-flooding. One storm in particular dropped between 2.50 and 3.50 of rain in a short amount of time, causing water to flow across roads in northwest McLean and southeast Woodford counties.</b>				
<b>TAZEWELL COUNTY --- PEKIN [40.57, -89.63]</b>				
	05/12/14 20:40 CST		30K	Thunderstorm Wind (EG 52 kt)
	05/12/14 20:45 CST		0	Source: Emergency Manager
A few trees and power lines were blown down in Pekin.				
<b>TAZEWELL COUNTY --- EAST PEORIA [40.67, -89.57]</b>				
	05/12/14 20:45 CST		0	Thunderstorm Wind (EG 52 kt)
	05/12/14 20:50 CST		0	Source: Public
An 8-inch diameter tree limb was blown down on Fondulac Drive in East Peoria.				
<b>An approaching cold front interacted with a very warm and humid airmass to trigger scattered strong thunderstorms across west-central Illinois during the evening of May 12th. A few of the cells produced minor wind damage in both Pekin and East Peoria in Tazewell County.</b>				
<b>VERMILION COUNTY --- 2.1 W ROSSVILLE [40.38, -87.71]</b>

Persistent rain from numerous thunderstorms tracking over the same areas produced 2.50 to 3.00 inches in less than two hours during the early evening hours in a small portion of northeast Douglas County. Numerous rural roads were impassable and closed as a result.				
A cold front interacted with a warm and humid airmass to produce clusters of severe thunderstorms during the late afternoon and evening of May 21st. Most of the storms were concentrated in a corridor from far southeastern McLean and northern Piatt counties southeastward across Champaign, Vermilion, northern Douglas, and northern Edgar counties. Very large hail up to the size of grapefruits was reported near Tuscola in Douglas County. In addition, thunderstorm cells repeatedly training over the same locations produced flash flooding in two narrow corridors across east central Illinois.				
<b>MCLEAN COUNTY --- 1.4 NNE LE ROY [40.37, -88.76], 1.5 NE LE ROY [40.37, -88.75]</b>

<b>DE WITT COUNTY --- 1.2 E BIRKBECK [40.18, -88.85], 3.6 SE PARNELL [40.18, -88.67], 2.1 ESE WELDON [40.11, -88.71], 1.4 S LANE [40.10, -88.85]</b>				
	05/29/14 14:30 CST		0	Flash Flood (due to Heavy Rain)
	05/29/14 17:30 CST		0	Source: Emergency Manager

Rainfall amounts 2.50 to 4.00" were reported within two hours during the afternoon of May 29th in eastern DeWitt County. Flash flooding quickly developed in the vicinity of Clinton Lake and to the east toward the town of Weldon. Most streets in Weldon were flooded. Illinois Route 10 and Illinois Route 48 from Clinton Lake to Weldon were barricaded due to the high water. The water quickly receded by early evening.

**A nearly stationary front draped across central Illinois provided the focus for afternoon showers and thunderstorms. The strongest storms produced heavy rainfall and localized flash flooding in eastern DeWitt County.**
